

COLORADO CULTURAL RESOURCES INVENTORY

Historical and Architectural Reconnaissance

This form is intended for use in survey projects undertaken for preservation planning purposes and it is NOT to be used for Section 106 compliance projects. It provides a basic descriptive record of a single building, structure, object, or site. Please use the #1417b Ancillary form to document additional resources on a single site. This form may provide enough information to assess architectural significance and/or to identify other potential areas of historical significance. Full evaluations of historical significance require additional property-specific research beyond the scope of this form and typically require completion of the OAHP *Historical / Architectural Properties: Intensive Level / Evaluation* form (OAHP form # 1403). For guidance on completing this form and required accompanying documentation, please refer to the instructions, available online at <http://www.historycolorado.org/oaHP/survey-inventory-forms>

DESCRIPTION

13. Construction Features (forms, materials):

Stories	Style/Type	Foundation	Walls
One-story	Minimal Traditional	Concrete	Stucco
Windows	Roof	Chimney	Porch
Picture window; one-over-one single hung sash; three-lite sliding sash; one-by-one sliding sash;	Side gable roof; asphalt shingles; overhanging eaves; exposed rafter tails under the eaves; wood shingles in the gable ends; lower side gable projection along north elevation	Metal flue	Partial length open porch along the north elevation; protected partial length elevated porch along the primary (west) elevation

Optional: additional description (plan/footprint, dimensions, character-defining and decorative elements of exterior and interior; alterations, additions, etc.):

The one-story, rectangular shaped residence was constructed in 1938 as shown through review of Garfield County Assessor's Office records. The approximately 32' by 44' residence is example of a vernacular form of Minimal Traditional style of architecture with minor decorative elements. Architectural features of the residence include a concrete foundation; side gable roof design; asphalt shingles; closed overhanging eaves; wood shingles in the gable ends; a metal flue chimney; a stucco exterior envelope; and a lower-level garage. Exposed rafter tails can be noticed under the eaves; however, a majority of the tails are obscured by fascia board for the mounting of gutters at some point. An elevated porch with a concrete staircase can be noticed in the center of the primary (west) elevation. The elevated porch leads to the main entryway consisting of a 12-lite wood door. The main entryway is capped by a front gable overhang with decorative wood shingles in the gable end. The overhanging is also supported by triangular brackets. The typical window consists of a one-over-one single hung sash with wood framing. Additional window configurations include picture; and three-lite

sliding sash units. A side gable addition was constructed along the north elevation of the building at some point. The addition incorporates a wide overhanging eave.

22. Notes: Before the establishment of New Castle, the area was frequented by the Ute Tribe who inhabited much of the mountain areas in western Colorado and eastern Utah throughout the summer seasons. However, the lure of wealth from natural resource extraction from several gold rushes and silver booms prompted many American settlers to explore the Rocky Mountains between the mid to late-Nineteenth Century. By 1881, the tribe had been removed from the area and relocated to the Uintah and Ouray Reservation in Utah. The Town of New Castle was incorporated several years later in 1888, shortly after Jasper Ward built the first homestead in the area in 1883. Coal mining quickly became a vital industry in the vicinity to supply fuel to silver smelters throughout the Rocky Mountain region. The town experienced several boom-and-bust cycles of the industry until the early to mid-Twentieth Century when coal mining came to a more permanent end. In the aftermath, agricultural operations including farming and ranching began to take hold throughout the mid to late-Twentieth Century due to the fertile soil in the area. Between the late-Twentieth- and early-Twenty-first Centuries, the town has experienced a sustainable growth in population.
