Background: The Colorado River Wildfire Collaborative works to empower all people to take action to reduce risk in their communities to protect people, property, and places from wildfire loss. The Parties recognize, accept, and respect the differences in missions, goals, and objectives of each other. However, wildfire does not recognize or respect jurisdictional boundaries. The Parties therefore will work collaboratively and in a coordinated fashion to achieve the shared goals of the MOU.

Title: Colorado River Wildfire Collaborative (CRWC)

- I. PURPOSE:** The purpose of this MOU is to document the cooperation between the parties to establish the Collaborative as an informal, unincorporated collaborative organization, in which the members set mutual goals and priorities, utilize existing forest management tools and legal authorities, and align their decisions on where to make the investments needed to achieve the purpose and goals set forth for the Colorado River Wildfire Collaborative and in accordance with the following provisions.

II. STATEMENT OF MUTUAL BENEFIT AND INTERESTS:

The Colorado River Wildfire Collaborative works to reduce wildfire risk by identifying, prioritizing, and implementing strategic cross-boundary plans and projects aimed at creating fire resilient landscapes and fire-adapted communities while focusing on community engagement, education, and inclusion.

In entering into this MOU, the Cooperators and the U.S. Forest Service recognize that the parties share certain common interests and goals, which include the following:

- Meaningful and ongoing engagement of stakeholders located in the forest and downstream in the development of strategies to achieve outcomes and foster support for the implementation of those strategies.

- A regional network of resilient forests and communities that are better able to absorb and recover from current and future stressors and disturbances.
- A collaboratively developed and supported fire management strategy (wildland and prescribed) so that wildfires are safely and effectively extinguished when and where needed, but also in the right circumstances.
- Resilient landscapes and infrastructure that support water quality and quantity needs, habitat for robust and healthy flora and fauna, livestock grazing, as well as recreation opportunities for residents and visitors to enjoy now and in the future.
- Active management to enhance forest health and reduce wildfire risk based on the best available data and contemporary science to inform the development and application of on-the-ground activities including landscape scale and cross boundary projects where needed. This includes the use of the best available science that will help stakeholders understand how a changing climate will impact our landscapes and ecosystems, while also looking for opportunities to improve understanding through local research.
- Promoting the personal responsibility of residents who live in wildfire risk areas to prepare as follows:
 - *homes are built or improved to best resist wildfire;
 - *defensible space around homes is created and maintained;
 - * insurance policies are regularly updated;
 - *emergency alerts are receivable and acted upon;
 - *evacuation plans are learned and understood;
 - *community mitigation initiatives are engaged in and are sought.
- Develop and implement risk assessment and strategies to evaluate critical infrastructure and increase overall resiliency to wildfire and to lessen the long-term effects that wildfires have on our stream corridors, water infrastructure, and community assets.

To accomplish the above goals, each party commits to:

- Work within their own statutory and regulatory authorities, including planning and decision-making requirements where applicable.
- Collaborate and coordinate to implement this MOU to achieve the purpose and goals expressed herein.

In consideration of the above premises, the parties agree as follows:

III. THE COOPERATORS SHALL:

- A. Provide a liaison to link the parties of this MOU together.
- B. Coordinate with the U.S. Forest Service, non-profit organizations, for-profit organizations, institutions of higher education, federal, state, local, and Native American tribe governments, and individuals.

IV. THE COOPERATORS SHALL:

- A. Provide a liaison to link the parties of this MOU together.
- B. Coordinate with the U.S. Forest Service, non-profit organizations, for-profit organizations, institutions of higher education, federal, state, local, and Native American tribe governments, and individuals.

subject to the provisions contained in the Department of Interior, Environment, and Related Agencies Appropriations Act, 2012, P.L. No. 112-74, Division E, Section 433 and 434 regarding corporate felony convictions and corporate federal tax delinquencies. Accordingly, by entering into this agreement Cooperators acknowledges that it: 1) does not have a tax delinquency, meaning that it is not subject to any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, and (2) has not been convicted (or had an officer or agent acting on its behalf convicted) of a felony criminal violation under any Federal law within 24 months preceding the agreement, unless a suspending and debaring official of the USDA has considered suspension or debarment is not necessary to protect the interests of the Government. If Cooperators fail to comply with these provisions, the U.S. Forest Service will annul this agreement and may recover any funds Cooperators has expended in violation of sections 433 and 434.

V. THE U.S. FOREST SERVICE SHALL:

- C. Coordinate with the Parties to this MOU, non-profit organizations, for-profit organizations, institutions of higher education, federal, state, local, and Native American tribe governments, and individuals.

- D. - B. The Parties acknowledge that any Party to this MOU may participate in local activities or implement decisions related to forestry management as part of their site-specific obligations, responsibilities, and authorities. This MOU is not meant to supplant any Party's discretionary authority to make decisions about forest management or wildfire response associated with their individual jurisdictions.
- C. This MOU is non-binding and does not obligate any funds of the Parties. As funding and resources are available and authorized (as determined in each Party's sole discretion), the Parties will provide technical, human, and/or financial support to the Partnership under an appropriate authority, as applicable, and by separate instrument(s).
