SINGLE STREAM RECYCLING

RECICLAJE DE UN SOLO FLUJO

Flattened/Aplanado

Put recycling loose in your recycling cart.
Ponga el reciclaje suelto en su carrito de reciclaje.

ITEMS MUST BE EMPTY, CLEAN & DRY
LOS ARTICULOS DEBEN ESTAR VACIOS, LIMPIOS Y SECOS

KEEP OUT/EXCLUIR

Do not put bags in your recycling cart.
No pone bolsas en su carrito de reciclaje.

RECYCLE RIGHT

What is recycling contamination? It is misplaced items that threaten the efficacy, efficiency and safety of the entire recycling system. As little as 10% of non-recyclable items in a load of recyclables can cause the entire load to be landfilled!

What is wish-cycling? When well-intentioned individuals put items that can't be recycled in with items that can be recycled, in hopes that they will be recycled somehow. Wish-cycling actually contaminates loads of recycling, which causes everything to be landfilled, the opposite of what the wish-cycler intended!

Wish-cycling increases recycling costs, lowers the value of recyclable materials and creates safety hazards

Recycle Right! By not including the items below which are contaminants, you are ensuring the entire load of recycling actually gets recycled, instead of taking a long carbon intensive route to the landfill. **When in doubt, throw it out!**
